**Backend:** Node.js, Express.js, MongoDB, PostgreSQL, RESTful APIs, GraphQL, Authentication Systems, WebSockets, Real-time Data, AWS Cloud Integration

**Development Tools:** Git & GitHub, CLI Proficiency, NPM/Yarn, Agile & Project Management, Debugging, Algorithms, Problem Solving

### ABOUT ME

Full Stack Web Developer with 3 years of hands-on experience building responsive and user-focused web applications. Skilled in modern technologies such as React, Node.js, MongoDB, and Tailwind CSS. Adept at developing both front-end interfaces and backend systems, collaborating in Agile environments, and delivering clean, maintainable code. Motivated to contribute to impactful projects and grow within innovative development teams.

### WORK EXPERIENCE

#### UNIOIL

Full Stack Developer

2025 - PRESENT

- Collaborated with cross-functional teams to plan, build, and refine scalable front-end interfaces and robust backend systems.
- Ensured responsive design across devices and optimized code for speed, reliability, and maintainability.
- Contributed to version control, testing, and CI/CD processes to maintain high development standards.

#### Freelancing

Full Stack Developer

2022 - 2025

- Designed and deployed multiple full-stack web projects, improving user experience and client conversion. Collaborated with mock clients to plan, build, and refine UI/UX and backend logic. Gained proficiency in API integration, state management, and responsive design.

### MY LATEST PROJECTS

#### 🌐 Mechanic Booking Website

Live Demo Built with React.js + Vite. A Full-Stack Booking and service Website built for a local mechanic shop. It includes an online booking system, service listings, and a secure admin dashboard to manage appointments and customer data.

#### 🌐 Barber Shop Website

Live Demo Promotional landing page using React.js + Vite and Tailwind. A modern barbershop website built for a real client. Fully responsive and animated using Framer Motion, it includes services, gallery, testimonials carousel, and a booking CTA.

#### 🌐 My Portfolio

My portfolio features interactive full-stack applications built with the MERN stack, demonstrating real-world functionality, modern UI/UX design, and API integration. It reflects my growth as a self-taught developer passionate about creating intuitive, performance-driven digital experiences.
