SUMMARY

After graduating with a degree in **Information of Technology,** I decided to pursue my passion for programming. I enrolled in a coding bootcamp and learned **Frontend web Development**. *My favorite part of programming* is the problem-solving aspect. I love the feeling of finally figuring out a solution to a problem. My core stack is **React, Next.js, Node.js, GitHub**. I am also familiar with TypeScript and TailwindCSS. I am always looking to learn new technologies. I am currently looking for a **full-time position** as a Frontend Web Developer.

When I'm not coding, I enjoy playing video games, watching movies, and playing with my dog. I also enjoy **learning new things**. I am currently learning Back-End Development **to be able to became a full-stack web developer**. I'm also learning Web Design with Figma.
